

Double data, so many more possibilities

Your employer is a Shape & Fix customer with Orange. As a result, the mobile data volume in your telecom package will be doubled as of 20 November 2017. Automatically, every single month and without doing anything. This advantage is called **Data Bonus**.

What will you do with double your mobile data?

A host of additional possibilities are now within reach. We have outlined a few practical examples that are bound to boost your productivity and flexibility.

Carefree sharing

Need to up or download a large file urgently? Then use your mobile device, without hesitation and without worrying about your data usage.

Smooth collaboration everywhere

Stay in constant touch with your colleagues regardless of your location. Chatting or making (video) calls - the choice is yours - and always at 4G speed.

Connected everywhere

Surf to your favourite websites anywhere in Belgium and the EU, check your social media or update your calendar.

Always perfectly synchronised

Whether you're working on the go on your mobile device or at the office on your computer or laptop, you can up or download your files immediately and always keep your info up-to-date.

The most powerful tools always at your fingertips

En route you also have the most efficient tools, software and apps at your disposal, enabling you to work more dynamically and flexibly.

What can you do with 1 GB of mobile data?

When you're surfing on your mobile device you don't want to have to worry about your data usage. Your priorities are unfettered access to your data and working more efficiently. By the way, do you know what you can do with one gigabyte of mobile data? Allow us to translate that gigabyte into practical terms:

Skype for **24 hours**

8 hours of video calls and sharing your screen with Skype

1.5 hours of HD video calls via Skype

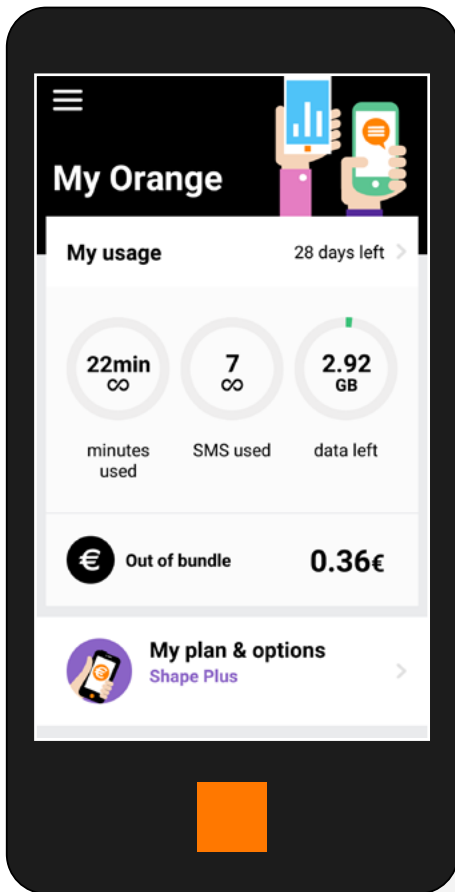

2 hours of viewing a webinar or YouTube videos in standard quality (480p)

visit **400** web pages

read **10,000** emails

send **2,000** emails with an attachment

download **50** apps

My Orange

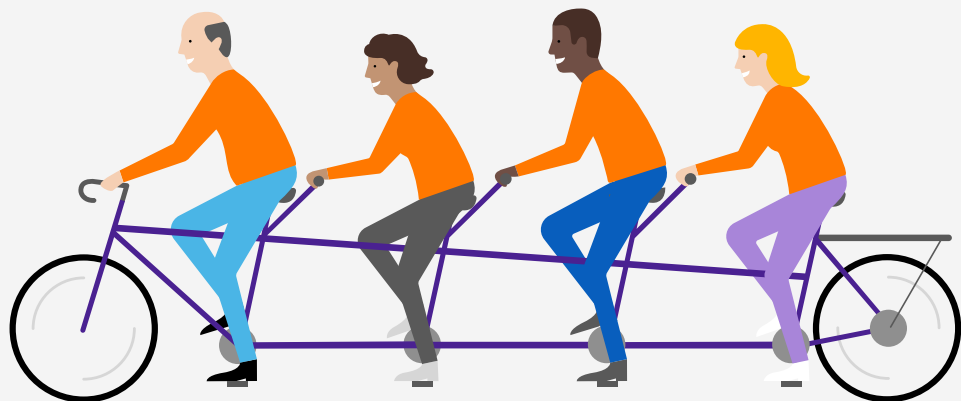

Do you like to keep tabs on your data usage?

Then the My Orange app is just the thing. At a glance you can see how much call credit, minutes, texts and surf volume remains in your bundle.

Download the app here.

Travel Data Control

Now that mobile roaming costs have been abolished, your doubled data volume is available in all EU countries. In short, when you're abroad on business you surf as carefree as you would at home. To avoid unpleasant surprises, Orange offers the **free service** Travel Data Control. This service is activated as standard for all Orange customers and it works as follows: you receive a free text message when you reach 80% of your roaming data spending limit. Your data connection will then be blocked when you reach 100% of your limit. This service can be deactivated and reactivated at any given time within your Customer Zone.

Go to business.orange.be/databonus for more inspiration on how to use Data Bonus to best advantage.
